

## Late Start Days

Sometimes my school has a late start day.

This is a day when all the students come to school later than the regular time.

This is because the teachers need time to go to their own classes and meetings.

It is good that teachers get to go to classes just like me.

My teachers and parents will tell me when it is a late start day. The next late start day is January 31<sup>st</sup>.

When I get to school, my teachers will tell me what to do. I can listen to make sure I understand what is different.

I can come to school late on special days. I will follow the different schedule that my teacher tells me to follow.
